Helpful ideas for your event's seating arrangements. Here are a few things to remember:

Aside from main traffic aisles, allow 54" between round tables for chair and service space and 60" between oblong tables where seating is back-to-back. This permits 24" service space behind 18" chair depth.

Where food service is not required and seating is at one side of the table, allow 36" between tables.

In the same area - square tables placed in diamond pattern usually permit up to 25% more seating than when set in rectangular pattern.
